

4th Cochrane Africa Indaba

(an International Evidence-based Health Care Conference)

Cochrane Nigeria invites you to the 4th Cochrane Africa Indaba. This event aims to bring together researchers, health professionals, policy-makers, national, regional and international stakeholders, evidence-based healthcare champions and Cochrane Africa collaborators to deliberate on priorities and strategies for making healthcare decisions evidence-based at all levels of the healthcare delivery system in Africa.

Policies aimed at Infectious disease outbreaks, emerging and re-emerging infectious disease control in Africa will also be discussed. The conference will feature plenary sessions, panel discussions, workshops, networking opportunities, and the formal launch of Cochrane Nigeria. networking.
